## MEMORANDA.

*Trade.*—The imports during August were valued at £3,829,909, which shows an increase of £330,153, as compared with the corresponding month of last year. For the eight months there was a decrease of £339,165, or over 1 per cent., as compared with last year. The direct oversea imports during August amounted to £1,914,908, as compared with £1,865,306 in 1908; the total for the eight months was £13,188,188, an increase of £110,087 over the corresponding figures for 1908. There were decreases in a number of the principal articles; agricultural implements, cordage and twines, iron and steel, kerosene, leather, and timber, however, showed increases.

The oversea exports for August amounted to £1,657,151, being an increase of £65,471 compared with the corresponding month of last year. For the eight months there was a decrease in the oversea exports of £717,887, or nearly 5 per cent., as compared with last year. Minerals decreased by £764,000, and butter by £166,000; but wool £108,000, wheat £624,000, meats £198,000, and tallow £160,000, show substantial increases. Separating merchandise from gold, the exports of the former during the eight months increased by £373,040, but the latter decreased by £1,090,927.

*Public Finances.*—The Public Accounts for August show that the net revenue for the month was £1,084,036, or £73,972 more than in August of last year. During the two months ended 31st August the revenue was £2,047,224, being £32,157, or 1·5 per cent., less than the corresponding period of the last financial year. The principal increases in receipts during the two months were—From Railways and Tramways, £16,920; and Water and Sewerage Rates, £16,340. The returns from Commonwealth revenue decreased by £33,428; taxation, £15,960; and lands, £38,767. The expenditure during August was £936,054, a decrease of £239,220 as compared with August of last year. During the two months the expenditure was £2,036,989, being £164,527, or 7·5 per cent., less than in 1908–9. Expenditure on Government Departments decreased by £11,553, Interest payments by £135,449; and on Business Undertakings increased by £55,575. On the 31st August, 1909, the balance to credit of the Consolidated Revenue Account was £415,821.

*Savings Banks.*—The latest returns show that at the end of June, 1909, there were approximately 442,000 depositors, having £19,022,151 on deposit. This shows the large increase of £1,172,767 in deposits during the year 1908–9. The average amount on deposit was over £43 per depositor, and £11 per head of population. Slightly more than one person in four is a depositor.

*Wheat Area, 1909-10.*—According to information supplied by farmers, the area sown with wheat for the present season is estimated at 2,240,408 acres, being an increase of 251,000 acres, or 12·6 per cent. as compared with the year 1908. The area expected to be reserved for grain is estimated at 1,871,310 acres, or over 477,000 acres in advance of the figures for the previous year. Owing to beneficial rains throughout the State, crops generally present a very forward and healthy condition, and with a continuance of favourable weather there is every prospect of an abundant harvest. The area of virgin land brought under cultivation during 1909 is estimated at 153,000 acres, or 81,000 acres in excess of the previous season.

The following statement shows, in the principal wheat-growing divisions of the State, the area cut for grain and hay last season, and that estimated to be cut this season :—

*Gold Production.*—The gold yield during August was 17,106 oz. crude, equal to 14,983 oz. fine, valued at £63,646. The value of gold produced during the eight months was £541,573, and showed a decrease of £110,321, as compared with the corresponding period of 1908.

*Prices.*—The general index number for August was lower than in July, but higher than for August last year. The index number for pastoral produce was 1,112, for metals 1,040, and for all articles 1,197. Prices generally were at about the same level as in the previous month, although wheat declined.

*Meteorology.*—During the month of August copious rains were recorded throughout the State, the falls being above the average, except in the Coastal District and in a small portion of the Western Division. The largest totals were received on the Slopes, Plains, and parts of the Tablelands.

*Land Selections.*—During August 162 new settlers applied for 89,597 acres; and 78,228 acres, representing 189 blocks, were set apart for residential settlement. Since the beginning of the year the number of new settlers has been 1,799, and the area applied for 1,197,145 acres. The original area set apart for residential settlement since the 1st January has been 1,002,459 acres, representing 1,228 blocks.

NOTE.—It will be observed that the net receipts from Reproductive Services were almost sufficient to pay the interest on the whole of the Public Debt. The result of the working of Partly Productive Services and of Public Buildings, &c. (either net receipts or net expenditure, is not given, as the figures cannot be ascertained satisfactorily. It must be remembered, however, that these works have been of great service in helping the development of the State, and without them the Reproductive Services would not show so high a return.
